

Student Health Advisory Committee  
12/12/17

SHAC Members Present: Mackenzie Callaway, Taylor Roberts, Mo Oyenuga, Claire Jenkins, Menglu Liang, Aisha Hassan, Leslie Kent, Eli Fleck, Tolu Odebunmi.

Boynton Staff Present: Carl Anderson, Gary Christenson, Dave Golden, Ben Hickman, Anne Hodgson, Julie Sanem.

1. Welcome and introductions (Mo)
2. Review of minutes from 11.28.17
  - a. No changes
3. Gopher Chauffeur
  - a. Hours for Mon-Wed will be 8:30pm-12:30am (based on votes and library closing times)
  - b. Will be hiring 30 new employees. Information available on GC Facebook & Twitter accounts
4. Makeup Work for Legitimate Absences Policy
  - a. The plan is to provide a fresh proposal to the Provost in the next month or so after debating some of the logistics about how to move forward.
  - b. An attestation form is being considered instead of a note from Boynton.
5. Swipe Out Hunger Update
  - a. There are approximately 500 cards with 5 meals on each card
  - b. They are currently being handed out through Boynton. We will start with our mental health staff being the first point of contact.
  - c. At this point, we won't advertise cards since we don't think it will be difficult to give them out and demand could be much higher than we can accommodate.
  - d. The weakness of this strategy is that it only helps those students who are Boynton patients.
  - e. We will have the email addresses of those students who are using the cards so we can follow up with them. Also, dining services will know how many meals are used through this program.
6. New Tax Plan Implications
  - a. This is a pretty significant chip away at Obamacare. If this passes, we predict a higher percentage of students coming in as uninsured.
  - b. Other potential impacts:
    - i. Increase in number of students at financial risk without health insurance
    - ii. Higher premiums in the market as healthier individuals drop coverage
    - iii. Possible reduction in SHPB enrollment as students register with waivers and drop coverage
    - iv. Point of service monitoring at Boynton for coverage may recoup some SHBP enrollment
    - v. Demand on SSF could increase assuming adverse selection in the market leads to increased cost sharing

- vi. Insurance across state lines and decreased consumer protections
- 7. SHAC Spring Semester
  - a. If you are not able to return to SHAC in the spring, please let us know who will be your replacement
- 8. Next meeting January 23rd, Roen Room W120 (please also reserve January 30th for a meeting to review the final Student Service Fee Proposal)
- 9. Adjourn
